I really hope last night wasn't you trying it on

14:45

You always say this yet I think the only time I've ever turned you down is when I'm fucked off with you and you're about to make me fucked off with you

14:46

No you fell asleep. Was gonna try it on the night before but after the movie you rolled over and spent 10 mins on your phone and I fell asleep as I was tired x

14:46 ✓✓

You've fallen asleep before me every day this fucking week. Last night my eyes were going and you said go to sleep you're tired. I love how you had the intention of trying it on but did fuck all so I'm in the wrong?

I'm a massive pregnant lump and you've not seemed interested for months so I dont 'seduce' men who dont make me feel sexy. Soz.

14:49

I think you're getting very angry over something that doesn't need to get angry about. I've been fairly fucked this week myself as I've reduced my meds and will be stopping complaining Sunday sorry. I tell you you're hot all the time. So you can't say I don't find you attractive x

14:50

Theres saying something in a jokey manner then theres making me feel it. If you're fairly fucked and cba with sex that's fine. Dont put onus on me for you not getting sex. I'm angry cause you are making out it's my fault you haven't shagged me. You've been asleep before me every night this week and have shown absolutely no interest so stop shoving your issues on me. We both worked out it's easier to play and you're making out that's why we've not had sex. I ordasm about 3 times a

making out that's why we've not had sex. I orgasm about 3 times a day to keep myself sane no matter what. That's whether were having sex or not. So stop putting the onus on me.

15:00

Jesus Christ. This started out as a bit of a joke and now you're in a foul mood. Yea I've been a bit tired some nights. Been doing like 12 miles a day as well. But you've also had your head well and truly in your phone. I will try and seduce you the best way I can later but if you're this pissed off then I probably won't try as there's no point. You just need to chill out x

15:03 ✓✓

Right well if it was a joke then you're not arsed about not getting sex so you wont get it on tonight anyway 😊
