Katie

I will stay in a hotel tomorrow to make this easier

Ok

Stay where ever.

As you will be aware you should not do that. You should not stop at friends or public places with any form of covid symptoms.

But you do what you feel is best

There is plenty of IPA. Please use everywhere

Book a test for tomorrow

I dont have covid symptoms

You have told me someone has coughed in your eye. That someone had covid.

Nurses on front line stay in hotels all the time to protect their family. They come into contact with more covid than me.

Ok
