Well that's no phone tonight

I gave him his bag the first time  
and he had it on his back. Picked  
the dogs up all of two mins and  
he's taken his bag off. When I said  
where is it Jesus christ. His  
response was what's the best egg  
to hatch x

Bey hes not forgotten his fucking  
phone has he. Dont you dare drive  
him hes getting that bus. If hes late  
it's his own fault. You're an adult  
though you should have noticed a  
lack of coat and fucjng bag. Both  
of you are more arsed about  
having phones and dogs with you  
than what is actually important.

Hope you are joking
