I've not done anything. That id forgot about Icarus. But you wasn't listening to me and I don't ever want to lose him. However I don't want to lose any of you. I've not got WhatsApp I've told my mates already I also don't know what the heavy thing means. I will do the status if you want but like I said I'll do that as soon as we do summat. I'll get a cute picture of us x

Think we seriously should go to a few of these. £40 a session. I'll pay for the first two and we'll see how it goes. What you think x

Whatever

Not til after you do that

I think it's needed ASAP if I'm being honest. I had felt better yday and this morning but now feel really low again. I don't know

I think it's needed ASAP if I'm being honest. I had felt better yday and this morning but now feel really low again. I don't know how you're feeling but I don't want to go on living feeling so depressed. If you feel anything like I feel it can't be healthy. Well like I said I've been meaning to register him from day one but thought no point yet it's a chunk of money I don't need to spend till we breed him. However yes I got scared you actually wanted to through the relationship away. I tried everything to sort it but I actually started to think you meant it. When we have sorted the relationship fair enough I'll register him in your name but I'm not the one trying to run away so at the minute it's not an issue. If you want an fb status just tell me what to write. Personally I don't think it matters what other people know as long as you know I love you. But fb is important to you so just tell me what you want to put x

Not doing anything until you sort it.

Dog and child's name is a no we agreed Kelly gibbons that's as much as you'd get. If you're not willing to do it then just say.

Don't forget the kids

Well em

We can discuss the future child's name after the councillor. But I ask nothing of you let alone demand. I've never once got angry and nearly threw our relationship away. Have you read your demands? Not trying to argue here but this is why I want a councillor. Them demands are so unhealthy. The WhatsApp alone has taken me away from my friends. I've not seen them in so long and now you've demanded I cut myself off from them altogether. Surely you can see that's not going to be healthy for me x

Katie

I'm on my way for her x

Well you have done that for one reason and one reason alone showing me you cannot be trusted yet again and showing you are willing to take my kids family pet away from them. So you undo it or just leave it im not arsed I can undo it myself but you are simply showing me we have no future

Tbt katie you bought Icarus for me as a present therefore he is mine. So I've not done anything wrong registering him in my name. Like I said I am not likely to throw the relationship away. Is actually started to believe that you was going to. I cook for the dogs I walk the dogs I pay for 99% of their stuff. The timing of me doing it wasn't the best but you seemed to want complete control of me and you know one way to do that is the dogs. Again it's not healthy. However I would be willing to do whatever councillor says x

Anyway what time you home x

You've got until 9 I'm fed up of all this now. Time you made a fucking decision.  
You've got until 9 I'm fed up of all this now. Time you made a fucking decision.

I'm fed up with it all. Icarus in my name means fuck all apart from we both have to work at the relationship when there's an argument. You was willing to throw it all away the other day without talking to me. Just wanted to throw it out the window. Took a long time but finally got you talking. I don't want to lose any of you. So basically it means now

long time but finally got you talking. I don't want to lose any of you. So basically it means now instead of you just walking off in anger you have to sit and talk to me. I have never once tried to throw the relationship away I always try and sort it out even when I'm steaming with anger. The only thing that changes is you can't just walk out without thinking x

Do you want me to come up and talk x

No I just want you to give me your decision at 9. I don't want a crappy answer I want yes or no. Don't forget I'm out tomorrow and you need to collect the kids.

Can you not see my point of view? When have I ever tried to kick you out or end the relationship? If I did I'd at least talk to you. This past week and a half have mainly been you ignoring me too off with you wanting to leave. This only gives me the advantage of you having to talk to me when we argue x

Katie

15

Yes or no

Can I ask what does it matter him being in my name x

I'm not going to leave x

Therefore you don't need to worry x

All you'd have to worry about is if you wanted to do a runner x

Hence seeing a counsellor is essential x

Because of your intentions to

break my children's hearts,

selfishness, lack of

trustworthiness, disloyalty and

proof that what you said to Greg

was correct.

You can't blackmail me to stay.

You have 6 minutes

No it's to stop you leaving without thinking. That is all. I'm not blackmailing. I will be more than happy to share the dogs if you ever actually wanted to leave x

Right now if you wanted to walk out without thinking you'd lose the dogs. However we are good together we work things out all the time but I fear one day you'll fuck off without thinking x

Did you put her uniform in washer

Well I've done things with your mates for the past 3 years. Thinks it's only fair you do summat with mine this year x

I don't know theres at least two wash's to put on x

Text Message

Katie

Well I don't do things like that on purpose but anything could happen we may not be spending it together just see what happens. Can you check his room for his uniform please

Well you said Birthdays xmas and nye have to be spent together. I could have done summat the last three times with my mates but did what you want. I just think it's fair we do my mates this year especially as you currently have nothing planned. Doesn't make sense to go looking for plans x

Yeah but we was together I mean if we don't sort things x

Well I've done more than what's reasonable to try and sort things out the ball is in your court now x
