Clear the living room I will be home soon. Can you make sure I have my phone charger please.

Please wear mask when traveling through areas of the house

Please sanitise hands prior to leaving the living room.

Please spray any surfaces that you touch

Please try and think of the children

Okay can you put what I've already asked for in there along with cleanser, toner, cotton pads, makeup, brush and fresh. You haven't responded.

I will do what I can

I've not asked anything difficult

I am trying to deal with a tired baby

Can you get everyone in the kitchen please

Make sure everyone goes out with you to walk the dogs so I can shower and pack a bag

Try and see if the council house website is working today it was down yday

Cant get a council house today mal. I told you two weeks ago she sneezed when I wasnt wearing ppe. You didnt react like this. I understand if you're suddenly worried about a second wave but me living in the living room is not sustainable. No matter what precautions I take I cant ensure anything whilst I'm in this house. I already brought the germs home two weeks ago so theres no further risk in my eyes but whilst you feel this way I will take extra precautions. It's really not nice listening to the babv cry and not

+ Text Message

Katie >

you feel the way I will take extra precautions. It's really not nice listening to the baby cry and not being able to do anything even when she has symptoms. So whilst you are worried I will stay away and tbh itll stop me from feeling useless. I dont have symptoms and dont think a test will rule anything out so I dont even know how long I will have to stay away to make you feel safe. However if anyone has it it'll be the baby so let me know her results. If they come back positive I will come home. Let me know if you're working from home etc so I can tell vicky what days you need childcare as shes been mithering. I will facetime the kids when I get to the hotel.

Also can you text when you're on your way home in case I'm not sorted.

The council house is not for covid. I'm sick of being treated like shit. The lies the control the manipulation. I'm done. I deserve to be happy or at the very least not be treated like shit all the time.

Everyone is negative

The conversation was 30th October and the sneeze took place the day before. I'm unsure when her positive test took place. What would you like me to do? I dont want to hear I dont care or do what you want I'm asking what you want me to do; isolate or not.

For me there's no need to isolate now. If you had told me this originally I would have said no isolation

Why no isolation? Its within two weeks.

Ten days is when it's out your system x

So ten days is up tomorrow

You're making no sense

I am fine no isolation as the contagious period has past

It hasnt passed at all 30th-9th is

Text Message

Katie

It hasn't passed at all. 30th-9th is ten days. So she is still contagious today and tomorrow. There is every reason to isolate but you have always been very laid back about it. You said the kids and us would be fine if we caught it. You haven't wanted us to isolate with Erin or James cough, your temp, Emily's temp, James contact etc. I need to stress that isn't me having a go because I made the same decision. You aren't making any sense to me and I want to understand you so just tell me what's going on. Nurses on the front line are a different kettle and either shower and wash their clothes on return home or stay in hotels. Tell me what has changed, explain why you have changed your mind. I'm confused and now I'm petrified of passing germs on or even the kids getting it and you blaming me. Help me understand because I don't not one bit

Right to me the infection rate from her is little to none. You need to decide what you think is best.

Text Message

Katie >

James's cough is asthma

My temp could not be repeated at home and once we got a new thermometer at work it's never been high again.

I'm off work till wed so get a test before that please

I wasn't asking for an explanation of why we didn't isolate as I said it was a shared decision. How is it little to none? She has covid. I found out 9 days ago when I was at her house that day. She was still contagious yesterday when that happened. As you say it's ten days. I am scared you will blame me for the kids getting ill now. Why have you changed your mind?

Right if you think she is contagious isolate

You said it's ten days. I'll admit I'm not sure on the science or rules. I will stay away until I have a negative test. I'm scared you're going to blame me for things and I

23:23

Katie

will stay away until I have a negative test. Im scared you're going to blame me for things and I csnt stand being here but not engaging with the kids its killing me already. Erin doesnt understand why. Are you okay with that?

Just do what you want. I can't stress that enough.

I'm not asking what I want I know that already. You've said isolate, are you okay me isolating in a hotel until i get my results. Dont give me a shitty response you have left me confused and scared and upset

How have I scared you

Or upset

Science wise I feel your fine. The final decision is yours

I am scared you will blame me for the kids getting ill, if they do. I am upset because I have had to sit in a room away from the kids listen

+ Text Message

Katie

upset because I have had to sit in a room away from the kids listen to them cry and act confused and unable to do anything for you to change your mind anyway. You told my kids that I was staying at a friends which is untrue and confusing for them. Science wise you feel I should isolate. I'm asking if you're okay me doing that in a hotel. We didnt ask james to stay in his room hence why I'm upset and confused. I'm asking you if you're okay me doing it in a hotel so I dont have to feel upset listening to the kids or scared I'm not 100% protecting them.

If you tell me to make the decision myself or any of that shit I wont be trying to talk to you again because you are clearly unwilling to communicate

Kids won't be effective but Covid. They will be asymptomatic probably.

I said science wise I feel you will not have been infected by her. So I feel like you don't need to

I feel like you don't need to isolate. Therefore the choice is yours. If you feel infected isolate

Why did you lay out these terms if you dont feel they would be affected? Science says the opposite. So why have you changed your mind? Nothing has changed. Answer the question

You didn't give me half the info. Now I have more info I can make a better choice. But I'm sick of typing the same shit now. Make a choice.

The info hasnt changed that she is contagious and coughed in my eye which is why youd like me to isolate. I wont play this game, I am asking if you are okay with me staying at a hotel until I have a negative result. Its not difficult but I'm sure you will lie and give me shit later like you always do. I cant stress enough that this is the reason we dont have a relationship because you are incapable of giving an honest representation of how you feel.

+ Text Message

Katie

relationship because you are
incapable of giving an honest
representation of how you feel.
TELL ME WHAT YOU WOULD
PREFER ME TO DO I AM NOT A
MIND READER.

You do not get to put the fear of
god into me then gaslight me and
act as though there isnt an issue
and everything is my decision.

I am getting in the shower please
dont come home without warning

I feel like you're not infected from
the new information you have
given me. I would only isolate now
that you have expanded on your
information if you develop
symptoms.

What would I like you to do? Treat
me with respect. stop being
manipulative and abusive. Treat
me nice for once. All the things I
do for you daily.

Right you go stop at a hotel if you
feels that's best have fun do what
you feel is best. But the
relationship needs to change or

Text Message

you feel is best. But the relationship needs to change or end as I can't keep living with you like this. I don't deserve it

Getting school lunch then coming home

Last warning home in 5

I've left a bag on the side in the kitchen can you put it at the living room door please it's just food I think

Can you get everyone in the kitchen so I can grab some pyjamas and have a wee before I go

He's fucked off upstairs

I need to put my dirty clothes in the wash can you go in another room please

Leave them there I will sort them x

Can you use gloves and remove the unused gloves from the

Can you use gloves and remove the unused gloves from the pocket then please?

Yes

Thank you. I'm going to double check my purse is in the car and then leave so stay in the kitchen then spray iPa on door handle later. I will facetime the kids later on tonight. Make sure they're all set for school tomorrow please.

I cant stay without proof its essential for business 🙄

Oh it's like hotels are closed 🙄

This one is open

For essential workers

Yes I know they all are

But apparently I need documentation to prove it's an essential stay

I thought I could just show mv

+ Text Message

I thought I could just show my work id

Why don't you tell them what happened

I have

They said unless I'm travelling for work purposes infant stay

And did they inform you what you're doing is illegal

No they just said it isnt essential. Even tried ringing a different one and saying I was homeless and they said no it has to be essential travel for work

Where's my nail clippers

Not the foggiest. What do you want me to do? Stay at someone else's?

Found them ta

What do you want me to do mal

Katie

Whatever you want

Dont ever wonder why we have issues when you cannot respond to anything properly or even be honest

I am being honest. Do what you want.

If you had told me the full story yday I wouldn't have said isolate. I keep telling you this but you won't listen. So do what you want. Stay here stay at someone else's house whatever. DO WHAT YOU WANT

My story hasnt changed though

And we have issues because you treat me like shit all the time

9 Nov 2020 at 19:16

Can you make her a bottle

9 Nov 2020 at 22:22

Would you bring my drink up please before you flick your head
